

European Ductile Iron STANDARD Gasket (STD)

Push on joint for STD pipes

EN 545 - ISO 2531 Standard specifications for Ductile Iron Pipes and Fittings

1 Scope

1.1 These specifications cover requirements and test methods for materials, dimensions, workmanship, flattening resistance, impact resistance, joining systems and marking for ductile iron pipes and fittings.

Available Diameters:

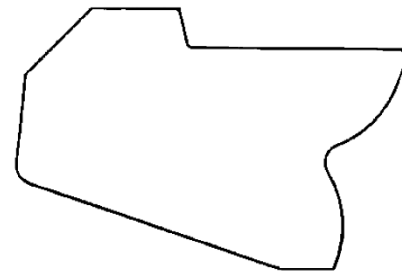

- 60-80-100-125-150-200mm
- 250-300-350-400-450-500-600mm
- 700-800-900-1000-1200mm
- 1400-1600-1800-2000mm

Available Rubber Elastomers:

- EPDM
- NBR - Nitrile

Rubber Elastomer Properties:

- EN 681.1WA for Drinking Water Supply
- EN 681.1 WG for sewerage

655 STD 2GS Metric 60 to 2000 mm
